

1. Scope

1.1 All deliveries and services from CARBAGAS are provided solely in accordance with the following provisions unless otherwise expressly agreed in writing between the customer of CARBAGAS (hereinafter "Customer") and CARBAGAS.

1.2 CARBAGAS rejects the customer's General Terms and Conditions, and these will only be included in the contract if CARBAGAS has expressly agreed to this in writing. CARBAGAS' General Terms and Conditions shall also apply if CARBAGAS provides the customer with the service without reservation whilst being fully aware of conditions that conflict with or differ from CARBAGAS' General Terms and Conditions.

2. General provisions

2.1 Conclusion of the Contract

The content of the contract is determined by the order confirmation from CARBAGAS. Promises of services from CARBAGAS are always subject to the possibility for it to replenish stocks and the correct and timely delivery of its suppliers. The agreement of delivery and implementation services for assembly, construction work and delivery of materials requires a written agreement. CARBAGAS shall not be under any obligation to meet delivery and performance dates unless the Customer has clearly stated all details of the order and handed over all the relevant instructions and documents.

2.2 Intellectual Property

The intellectual property and all copyright in all documents, respectively, ideas on which they are based, projects, designs, drawings, assembly instructions, such as, for example, texts, manuals, models, as well as trademarks, patents and know-how shall remain the exclusive property of CARBAGAS. CARBAGAS grants the Customer an inalienable and non-exclusive right of use to these documents, trademarks, patents and know-how to the extent and for the time necessary for the performance of the present contract. The documents, trademarks, patents, and know-how may only be used for the purpose of fulfilling the contract. Following the termination of the contractual relationship, the Customer is obliged to immediately return all related documents to CARBAGAS or destroy them, after consultation with CARBAGAS. Disclosure or forwarding to third parties or reproduction of these documents is not permitted.

2.3 Obtaining Licences

All licences or other authorisations required for setting up installations and the operation of equipment installed by CARBAGAS are to be obtained and paid for by the Customer. To the extent that CARBAGAS supports any such application, CARBAGAS shall be appropriately remunerated.

2.4 Transfer of risk

The goods are delivered from the agreed CARBAGAS factory or distributing partner. CARBAGAS may make partial deliveries; the route and means of transport are governed by a special agreement, at CARBAGAS' discretion. The Customer bears the transport costs, including any taxes such as HGVC, etc.

The risk is transferred to the Customer when the goods are handed over to the carrier or another transporter.

If the Customer or a carrier commissioned by him picks up the goods, the goods that are reported as ready for dispatch must be picked up immediately. If this fails to happen, CARBAGAS is entitled to dispatch the goods or store them at his own discretion and invoice them immediately. The Customer bears all costs incurred. The transfer of risk begins when the goods are ready for dispatch. The Customer is accountable and responsible for the reliable and safe handling during loading and unloading. If CARBAGAS chooses to assist in this process, it is merely an act of courtesy.

2.5 Terms of payment and offset prohibition

The agreed prices are listed in CHF as ex-factory or ex-depot and do not include packaging or taxes such as VAT and HGVC. The total amount will be stated in the invoice. The invoiced amounts are net amounts and are payable within 30 days of the date of any invoice without any deduction. After the payment period has elapsed, a reminder fee and a default interest at the prevailing market rate may be levied on the outstanding amount. In such cases, CARBAGAS is entitled to supply the Customer against prepayment.

Complaints regarding the invoice of the delivery and performance shall be submitted to CARBAGAS promptly in writing following receipt of the invoice. Failure to submit objections within 10 calendar days of receipt of the invoice shall qualify as an implied consent to the correctness of the invoice.

With respect to material, assembly and construction services with a contract value in excess of 10 000 CHF the following payment terms shall apply:

- 60 % on conclusion of the contract / order
- 40 % on delivery (30 % in the case of contracts for work and services)
- 10 % on contracts for work and services following acceptance

Minor work outstanding on the part of CARBAGAS such as the commissioning operation or other matters at the time of delivery or acceptance shall not impact the due dates for payment.

The Customer is not entitled to withhold payment and to withdraw from performance against the claims of CARBAGAS. The Customer waives the right to redeem any claim against CARBAGAS by offsetting payments.

CARBAGAS may charge a fee of at least 4 CHF for hard copies of invoices.

2.6 No Credit Notes for Returns

In principle, no credit notes will be issued for returns of gas.

2.7 Notice of Defects and Right to Choose

The Customer shall inspect the goods promptly following receipt respectively assembly and inform CARBAGAS by email, fax or post of any defects immediately and at the latest within 5 days following receipt respectively assembly (Notice of Defect), otherwise the goods shall be deemed to be approved and accepted. In the case of any Notice of Defect from the Customer, CARBAGAS is entitled to inspect and examine the rejected goods. Where in the course of such inspection it is established that CARBAGAS is not responsible for the defect, the Customer undertakes to reimburse CARBAGAS for the costs arising from the inspection (e.g. transport, examination and

disposal costs). With respect to any defects CARBAGAS is entitled at its own discretion to rectify the defect or fault or replace any such goods. If the goods delivered (such as fittings, containers, gases, etc.) or the plants set up are not handled properly, and/or not regularly maintained, and/or technically and/or structurally modified without CARBAGAS' written consent, it is assumed that any defects and associated consequential damages are attributable to this non-compliance.

CARBAGAS is only liable for compliance with equipment performances in accordance with the standard conditions of the respective manufacturer.

If devices are defective because they have been used or installed incorrectly, they are not covered by the warranty.

Warranty claims for deliveries and services provided out of good faith are fully excluded.

Part-deliveries and part-performances are permissible if CARBAGAS has a legitimate interest in this and this is reasonably acceptable for the Customer.

All claims by the Customer regarding defects in quality and/or defects in work and services shall be limited to one year following the transfer of risk. Carbagas ensures that the gas/gas mixture maintains the specified properties (stability, homogeneity, etc.) for a period of one year.

2.8 Limitation of liability

2.8.1 The liability of CARBAGAS towards the Customer for defects in quality and defects in work and services and any damages arising therefrom shall be excluded to the extent permitted by law.

In accordance with the statutory provisions, CARBAGAS is liable if the Customer makes a claim for damages based on intentional or gross negligence, including on the part of CARBAGAS' representatives or agents, and also in the event of a culpable breach of an essential contractual obligation. Essential contractual obligations are obligations that must be fulfilled so that the contract may be properly executed and that the Customer may consistently depend upon to be compliant. In the case of the supply of gases, CARBAGAS' essential contractual obligations are limited to the supply of the gases in compliance with the specifications. Where CARBAGAS is not charged with the intentional or gross negligent breach of contract or a breach of a key contractual obligation, its liability is limited to the foreseeable damage or loss that is usually experienced in the given circumstances. Liability for property and other consequential or immaterial damages is not covered by the foreseeable loss that is usually experienced in the given circumstances.

2.8.2 If CARBAGAS is unable to supply on time, the Customer is entitled to demand a flat-rate compensation for the delay to the amount of 0.5 % of the delivery value of the respective (partial) delivery obligation for every full calendar week, but not more than 5 % of the delivery value of the respective (partial) delivery obligation. Further liability for delayed supplies is excluded, except in the event of intentional or gross negligence on the part of CARBAGAS and/or in the case of intentional or gross negligence by CARBAGAS' agents.

2.8.3 Liability for damages in excess of the provisions referred to in 2.8.1 to 2.8.2 is excluded. This does not affect claims based on physical or personal injury or ill health as well as mandatory provisions regarding liability.

2.8.4 Any claims for damages shall expire within one year from the start date of the statutory limitation period, unless CARBAGAS is accused of intent or gross negligence or if the mandatory statutory provisions generate a new deadline.

2.9 Force Majeure

CARBAGAS is not liable for events beyond its control, such as events of force majeure, actions of third parties (acts of terrorism, sabotage, etc.), lockouts, strikes, failure of machinery or equipment, delayed or incorrect deliveries from our suppliers, explosions, floods, fires, earthquakes, failure of communication services or energy supply, lack of means of transport or important operating materials, exceptional traffic and road conditions, epidemics (including the outbreak of the COVID-19 pandemic), quarantine and other similar measures, as well as other operational disruptions that occur through no fault of its own, the introduction of legal provisions, etc. Such events release CARBAGAS from the duty to deliver for as long as such hindrances exist.

3. Special provisions regarding the delivery of gas

3.1 Delivery of gas

The delivery of gases (in gaseous, liquid, solute or solid form) shall be made depending on the type of gas and the quantity solely in officially approved cylinders or bundles of cylinders, in cryogenic receptacles, in tanks or in special packaging, hereinafter referred to generally as "containers". The costs of delivery as well as the return of the containers shall be borne by the Customer and, where performed by the Customer, at the Customer's risk. Following successful delivery, the Customer is solely responsible for each further use of the gas and the containers.

Home-delivery of containers means delivery to a place accessible to lorries and on even ground. Should CARBAGAS be engaged by the Customer to transport and/or connect goods from the home-delivery location to another location, this shall be done at the cost and risk of the Customer. Where the gases are collected by the Customer from a depot or a CARBAGAS point of sale, such transportation shall be governed by the "Ordinance on the Carriage of Dangerous Goods by Road" (SDR, SR 741.621) respectively the "European Agreement concerning the International Carriage of Dangerous Goods by Road" (ADR, SR 0.741.621).

3.2 Delivery note

The Customer shall receive a delivery note after each delivery, listing the number of containers delivered and returned. Upon delivery, the Customer must review the details on the delivery note. If the delivery note is sent electronically, the Customer may file a complaint within 5 days from the date of issue. The delivery note forms the basis of the invoice.

3.3 Quantities

Depending on the type of gas and delivery, the quantities are expressed in kg, l or m³ and will be determined by CARBAGAS. The supply volume in m³ is based on standard conditions at 1 bar and 15°C. The pricing for the gases supplied is usually calculated according to a flat rate per container or the quantity supplied. The definitive volume is measured by the measuring instruments of the filling plant, or by the flowmeter, in the case of mobile containers filled at the Customer's premises. The measurements may be inaccurate if the volume supplied is below the minimum supply volume of the device.

3.4 Purity of the gases

CARBAGAS ensures the correct filling of the containers and the purity of the gas according to the valid specification. CARBAGAS assumes no liability for impurities introduced into the containers outside its premises. Individual analysis and corresponding purity warranties shall be provided solely at the special request and at the cost of the Customer. The customer bears the risk of its suitability and use.

3.5 Orders

Pursuant to the applicable order deadlines set by the Customer, deliveries by CARBAGAS shall be made when possible on the desired date. Orders for a delivery on a delivery day according to the delivery schedule of CARBAGAS must be submitted to CARBAGAS at the latest by 10 a.m. on the day before. In the event that the Customer order is submitted too late so that a delivery at the desired time is only possible by way of an express delivery, a corresponding additional fee will be invoiced in accordance with the applicable rates. The right to vary the delivery date and delivery quantity due to the geographical location of the Customer, the level of stock or the available means of transportation remains reserved.

3.6 Prohibition to resell

The resale of gas bought from CARBAGAS is prohibited without the written permission of CARBAGAS.

4. Special Provisions on the rental of containers

4.1 Rental of containers

The containers are as a rule rented and are the property of CARBAGAS. Containers located at the Customer's premises shall be subject to a daily rental charge in accordance with the CARBAGAS rates at the time of the delivery, provided that no consolidated rate has been agreed for these containers. ("lump sum contract / EcoPass" instead of daily rental). The rental charges (daily rental and lump sum contract) can be adjusted to suit the modified costs. Calculation of the rental period will be based on the delivery and return dates. The rental payment due from the Customer for the use of the containers is calculated as stated on the attachment to the invoice under "container account" where this is requested by the Customer. The container account of the Customer is deemed to be acknowledged if the Customer does not reject this in writing within 10 calendar days following receipt of the invoice. Separately from any rental agreement, CARBAGAS reserves the right to impose an immobilisation charge should the container account of the Customer exceed an average turnaround period of 90 days per container.

4.2 Use and notification duty

The containers may only be used for the extraction of gas loads and may not be filled with gas or other substances by the Customer or a third party. The Customer undertakes to treat the containers in accordance with the regulations and with care. The cylinder valves must be closed properly after use. Containers may not be handed on to third parties without the permission of CARBAGAS. The Customer is responsible for ensuring that the inside of the containers are not contaminated during use, e.g. through the return flow of other substances. If certain containers appear faulty or there is a danger of contamination, the Customer shall immediately cease using the container and notify the nearest CARBAGAS point of sale accordingly. All maintenance work on the containers is to be performed exclusively by CARBAGAS.

4.3 Return of the containers

The Customer shall return the rented containers to CARBAGAS as quickly as possible once they are empty. The return of anything else other than the rented containers shall not release the Customer from its obligation to return the rented containers. CARBAGAS will take back empty containers at the service delivery point, for a fee. The lump sum contract/Ecopass is not terminated when the containers are returned. The lump sum contract/Ecopass can only be terminated by way of a written request. If the lump sum contract/Ecopass is terminated prematurely, the Customer is not entitled to a pro rata refund of the rental fees already paid.

4.4 Liability of the Customer

The Customer is liable for the containers entrusted to him, in particular for any damages to the containers and their fittings, for the consequences of any contamination to the inside of the containers as well as for any containers or parts thereof not returned.

4.5 Container Information System

CARBAGAS operates a container information system with which it tracks each rented container. Discrepancies (e.g. the return of containers by third parties which are in the Customer account) will be identified and corrected. Where a correction is made owing to the negligence of the Customer, CARBAGAS reserves the right to invoice the Customer for the expense arising therefrom. Specific services relating to the container information system and which concern the Customer are available at a charge to the Customer.

4.6 Customer's containers

The inspection or filling of the Customer's containers is not included.

5. Final Provisions

5.1 Insurance

The Customer shall insure at its own cost, all materials and equipment made available by CARBAGAS against damage by fire, the elements, burglary, theft and water. The Customer must also ensure it has taken out a company liability insurance which

adequately covers the activities and risks arising from the business relationship with CARBAGAS, for which the customer is responsible.

5.2 Safety

By signing the contract, or upon receipt of the goods, the Customer confirms that he or the persons entrusted with the order are adequately trained in handling CARBAGAS products and are familiar with the characteristics of these products. The Customer can download the relevant safety data sheets at any time as well as further information about the applicable safety requirements at www.carbagas.ch or request these directly from CARBAGAS. The corresponding CARBAGAS safety regulations shall apply to work provided by CARBAGAS on the Customer's premises. The Customer may request these from CARBAGAS at any time. Where the Customer possesses its own safety regulations, these shall apply on a secondary basis to those of CARBAGAS insofar as these have been provided to the CARBAGAS employees by the day the work commences at the latest.

5.3 Severability clause

Should a provision of these GTC or the individual agreement with the Customer be or become invalid, void or unenforceable, the validity and enforceability of the remaining provisions shall not be affected.

5.4 Data protection

CARBAGAS collects and processes personal data insofar as this is necessary to fulfil the contract. For more detailed information, please refer to our Privacy Policy at www.carbagas.ch.

5.5 Code of conduct

CARBAGAS points out its principles as set out in the CARBAGAS Code of Conduct and the Anti-Corruption Code of Conduct (both can be read at www.carbagas.ch). The Customer will adhere to the principles contained therein and will implement policies and procedures to promote compliance with the applicable anti-corruption laws and regulations. Carbagas provides an externally managed hotline and website for the confidential submission of information regarding potential breaches of laws and regulations. You can report instances of corruption, fraud, embezzlement, tax evasion, human rights violations, contraventions of antitrust and capital market laws, insider rules, data protection laws, or any other violations of the Carbagas/Air Liquide Code of Conduct either by phone or through the designated website. It's important to note that these communication channels are not intended for customer complaints or matters related to contractual issues concerning customer business. Please contact our official customer hotline.

5.6 Entry into Force

These General Terms and Conditions come into force on 01.01.2024 and replace all previous General Terms and Conditions for deliveries and services provided by CARBAGAS. Alternative written agreements made with the Customer remain reserved.

5.7 Jurisdiction and Applicable Law

Bern is the place of jurisdiction. For legal claims with monetary requests up to 5 000 CHF, lawsuits may be filed in the jurisdiction of Zug. The GTC as well as the legal relationship between the Customer and CARBAGAS are subject exclusively to Swiss law excluding Swiss International Private law and any international treaties (in particular the Vienna Convention dated 11 April 1980, SR 0.221.211.1.).

3073 Gümligen, 1st of January 2024
